					We just want to thank you for an awesome canopy over our deck. It has exceeded our expectations! After years of not being able to enjoy our deck on hot, sunny days, it has made our deck a very comfortable extension of our living space. The ceiling fans are great too! When there is no air movement they provide a gentle breeze that really makes this living space comfortable at any temperature. One of the really neat things we now enjoy is being able to sit out under the canopy while it is raining! We can't say enough about our new canopy and the quality of the workmanship!

It kept the saw dry even in downpours and driving 75 mph down the highway. Thanks
